Company Profile:

Adhunik Industries Ltd. (AIL) is one of the renowned Company in Iron and Steel industry in Eastern part of India that produces the finest quality TMT bars in Kolkata. Since its inception the company has come a long way to position itself as one of the leading TMT bar manufacturer in Kolkata. AIL has accreditation as an ISO- 9001:2015, 14001:2015 & OHSAS 18001:2007 Company and is listed with Calcutta Stock Exchange Limited, BSE Limited and NSE Limited.

Adhunik has a highly committed research and development team. Dedication and stringent quality control procedure here reflects through the products like Fe 500 SD – the best quality TMT bar to be used under most severe conditions and for major constructions.

AIL is primarily involved in the manufacture of rolled products mainly TMT Bars, Rounds and Wire Rods. AIL has set up the following manufacturing facilities :

- a) Rolling mill with installed capacity of 1,70,000 MTPA at Raturia Industrial Area, Angadpur, Durgapur, West Bengal.
- b) Wind Mill of 1.50 MW capacity at Dhule, Maharashtra (COD: 8th February, 2007). The Company has entered into a Power Purchase Agreement with MSEB (Maharashtra State Electricity Board) for a period of 13 years.

The Company enjoys backward linkage with other Group company situated nearby at Durgapur, which were engaged in manufacturing of sponge iron and billets.
